

NORTHERN PLUMBING SUPPLY

Part# PRO45 fill valve

How do you make the most popular fill valve in the world even better? By making it PRO grade. The PRO45 comes with a special shank that makes it the quietest fill valve on the market and reduces water hammer to almost nothing. That means your customers will barely know that their toilet is filling up. And, best of all, they won't find the PRO45 in a big box store, because the PRO45 is only available through your plumbing wholesaler!

- Replaces most fill valves and ballcocks for ultra-quiet operation and elimination of water hammer
- Ultra-quiet operation
- Minimal water hammer
- Code approved
- Easy to Install
- Fits All Brands
- 5-Year Warranty
