

NORTHERN PLUMBING SUPPLY

Part# PRO57 flush valve

One of the most important parts of a toilet is the flush valve. A bad flush valve means your customer is losing water. Give them a PRO flush valve with a PRO57. Made from durable ABS plastic, the PRO57 is made to last in any water conditions. It also comes with a PRO55 flapper, which can be adjusted for optimal water volume.

- Longer-life, kink-free stainless steel chain
- Corrosion-resistant materials withstand constant use
- Adjustable float controls water in tank for optimal flush
- Universal-fit, chlorine-resistant flapper; fits most toilets
- Makes future repairs easy, simply snap on Flapper Model 500, 501, 502 to replace
- Saves water, stops leaks at the drain
- Fits All Brands
- Easy to Install
- 5-year warranty
