

This unit offers anti-siphon protection only.

The Woodford Model 22 is designed to provide year-round hot and cold water service regardless of outside temperature. Separate hot and cold inlet tubes and operating handles allow for manually operated water temperature control.

Available in three models:

- Model 22 *Horizontal Mount* - Rough Brass
- Model V22 *Vertical Mount* - Rough Brass
For end wall installation
- Model 22CC *Close Coupled* - Rough Brass
For use in non-freeze areas - Fits within 2" X 4" wall

SUGGESTED USES:

Residential structures where hot and cold water service is required.

FEATURES:

- Faucet drains automatically when hose is removed.
- Permanent stainless steel seat will not wire draw.
- EPDM packing to prevent leaking.
- Loose Tee Key - optional

OPTIONAL: An RK-PT Repair Kit is available at additional cost to convert the hot side handle to a Push to Turn. This will reduce the potential to unintentionally turn on the hot water.

SPECIFICATIONS:

- ASSE 1019 Type A approved
- CSA certified
- UPC®/IAPMO Listed

Nozzle - 3/4" male hose thread

Valve Operating Threads - Full circle threads on valve body and retainer

No Lead Solder - All solder joints

Seat Washer - Standard "O" size

Handle - Polycarbonate
Optional - Powder coated die cast aluminum

Max. Pressure - 125 p.s.i.

Max. Water Temperature - 120° F

U.S. Patents: Manufactured under one or more of the following patents: 6,206,039B1; 5,632,301; 5,590,679
