Meridian EDGE™ Corterra® Tri-Basin - ADA/OBC Compliant

Meridian Corterra® Tri-Basin is intended to be mounted to accommodate ADA. Washbasin is constructed of Corterra® recycled solid surface polymer resin and combine the look of granite and the feel of commercial-grade designer basins. Adequate wall backing is required to support this wall mount, off-floor washbasin fixture. When mounted 33" at finished floor, fixture would comply with OBC requirements. When mounted 34" at finished floor, fixture would comply with ANSI, UFAS and ADA requirements. Alternatively, the unit may be mounted at the height to comply with ADA requirements for children. Compliance is subject to the interpretation and requirements of the local code authority.

Hinged Trap Enclosure is included to allow easy maintenance and to conceal hot & cold mixing valve, supply and waste connections. Enclosure is fabricated of 18 gage, type 304 stainless steel with a satin finish engineered to provide a profile that complies with both ADA & OBC.

Mounting Bracket is included and fabricated of 11 gage galvanized steel with rear anchoring slots. Adequate wall backing is required.

Counter with Integral Basin is constructed of Corterra® recycled solid surface polymer resin and is ICPA SS-1 approved. Corterra® uses a minimum of 15% post-consumer recycled material and a minimum 5% rapidly renewable material derived from bio-based sources.

Optional Sensor Operation is available, which includes infrared spout, 0.5 GPM flow control, and a plug-in transformer; for optional battery powered sensor, a battery box is provided.

Optional Dyson Airblade™ Tap Faucet are optionally available, which includes infrared spout and air dryer, 0.5 GPM flow control, under counter motor bucket, lead-free stainless steel with a brushed finish.

Optional Valves are available; ASSE 1070 compliant valve delivers constant water flow by compensating for temperature and pressure fluctuations. Valve is factory set to 105° Fahrenheit and includes integral checks and strainer to prevent cross-flow and contamination. Maximum Operating Pressure 125 PSI. A Single Temperature Air-Control Metering Valve assembly and is offered as an alternative to the standard hot and cold mixing valve when a single water supply is desired.
