

AK SERIES GENERATOR

RESIDENTIAL STEAM GENERATOR

The soothing and purifying effects of steam bathing are a direct result of the bath's ability to minimize temperature variations and maintain an even flow of steam. Amerrec AK generators were purpose-designed for home use, transforming your shower or bathing room into a daily invitation to comfort. An AK generator uses full power to quickly heat up the steam room to its preset temperature, then cuts power to half its elements. The result is a more consistent flow of soft steam and more stable temperature – the perfect conditions for relaxing and recharging whenever the mood strikes you.

ADK AUTOMATIC DRAIN OPTION

Your AK generator-powered steam bath can also be fitted with an optional automatic flushing system for added convenience and worry-free performance. The ADK automatic drain option empties the generator tank after every bath, and refills the tank with clean,

fresh water before your next bath. In addition to reducing sediment build up and providing longer element life, the ADK option ensures that the steam for each new bath is generated from clean, freshly-sourced water.

-  Innovative "soft steam" elements maintain stable temperature and steam flow, ensuring a perfect steam bath experience every time
-  Standard manual drain valve can be upgraded to the automatic drain option for added convenience and longer element life
-  Easy to install and use
-  Limited Lifetime warranty protects your investment and ensures years of trouble-free performance
-  Available in a range of sizes and power configurations to ensure a consistent steam experience regardless of bathing room size or shape

AK SERIES GENERATOR					
Model	Power (kW)	Volts	Phase	Max Cu. Ft.	Size (WxHxL - inch)
AK4	4.0	240	I	75	6-1/4x13x16-1/2

AK30***	30.0	240	-	1350	-

* Single phase AK12 & AK14 generators require 2 separate line circuits and 2 steam heads for each generator.

** AK17 & AK20 include 2 generators connected to function as I system with one I control.

*** AK30 includes three 3 generators connected to function as I system with I control.

Please call 1-800-331-0349 or look at www.amerec.com for detailed electrical specifications.

"WARM START" INSTANT STEAM OPTION

Imagine being able to step into the gentle, healthy heat of cleansing steam within 60 seconds of

turning the generator on. The "Warm Start" option keeps water in the tank preheated to a temperature just below a boil, reducing the time required to heat the bath by several minutes. And if you won't be using the steam bath for an extended period, a simple on/off switch lets you deactivate the pre-heating option to save on power consumption.

K200i FREEDOM CONTROL

Now you can start, stop or adjust your steam bath from virtually anywhere within a 50' range. Amerec's remote K200i Freedom Control means no cables, no mounting and no need to drill holes through expensive marble or tile. The K200i hand unit frees you to enjoy the very best steam bath experience possible.

CONTROLS

RESIDENTIAL STEAM GENERATORS

Think of it - you've just awakened and your first thought is to greet the day in the warmth of a steam bath. Now there's no need to go to the steam room as the control comes with you. Amerrec's K200i Freedom Control provides the convenience of wireless remote control from almost any room in the house. While the control's subtle tones of biscuit or white complement the bath environment, the ComfortFlo steam head is available separately in polished chrome, polished brass, polished nickel, brushed nickel or oil-rubbed bronze. Can it be more convenient?

i Chromatherapy Lighting Option. Research has shown that different colors have varied psychological and physiological effects on us. This option, installed in the steam shower ceiling, provides color light therapy to enhance your feeling of health and well-being.

i Fragrance Injector. This option automatically infuses your favorite aromatherapy oil directly into the steam line. You control the intensity of the therapy using the K200i Control.

i EvenSteam™ Air Circulation Fan Option. For steam bath ceilings over 8', this option circulates air to minimize temperature variations – letting you enjoy the same full, rich sensation of steam comfort from top to bottom.

K200i FREEDOM CONTROL

With the K200i Freedom Control, nothing gets between you and a perfect steam bath experience. Completely wire-free, the K200i lets you control every comfort aspect of your steam within a 50' radius. There are no cables to install, and no expensive or tricky drilling – set the timer and temperature, and know instantly when your steam bath is ready from almost any room in the home... including inside the steam room. Available in White or Biscuit.

THINK OF THE FREEDOM...

- to turn on your steam bath from the comfort of your bed
- to enjoy a cup of coffee in the kitchen and still know at a glance when your steam bath temperature is exactly right
- to adjust your steam bath experience inside the shower, without having to get up
- from installing and dealing with messy cables
- from drilling holes through expensive tiles, marble or granite

Amerec offers a wide variety of control options for AK generators that let you tailor your own steam bath experience to your exact personal specifications. Each unit comes in your choice of metal cover finishes (polished chrome, polished brass, polished nickel, brushed nickel and oil-rubbed bronze). All kits include the ComfortFlo™ steam head and all the cables needed to connect the control to the generator.

KT60 – DIGITAL CONTROL WITH BUILT-IN TEMPERATURE SENSOR

- Digital display alternates between room temperature and time remaining
- 3-button panel with on/off, temperature setting and time duration setting adjustable up to 60 minutes
- Integral temperature sensor simplifies installation
- Must be mounted inside the steam room

K60 – DIGITAL CONTROL WITH REMOTE MOUNTED TEMPERATURE SENSOR

- Digital display alternates between room temperature and time remaining
- 3-button panel with on/off, temperature setting and time duration setting adjustable up to 60 minutes
- Remote temperature sensor must be mounted inside steam room
- Can be mounted inside or outside the steam room

K30 – DIGITAL CONTROL WITH REMOTE MOUNTED TEMPERATURE SENSOR

- Display window lights up when steam generator is on
- 1-button on/off panel with built-in 30 minute timer
- Remote temperature sensor must be mounted inside steam room
- Can be mounted inside or outside the steam room

R30K – ON/OFF NON-THERMOSTATIC CONTROL

- Green indicator light tells bather the generator is on
- Simple on/off switch without temperature sensing
- Built-in 30 minute timer
- Can be mounted inside or outside the steam room

Polished Nickel

Brushed Nickel

Oil Rubbed Bronze

COMBINATIONS

KT60, K60 and K30 controls are available in dual control kits so one control can be mounted inside and the other outside the steam bath for user convenience.

DKT60 / K60

DK60 / K30

PLUG AND PLAY

Experience the pleasure of steam with plug-in simplicity. Just plumb cold water to the unit, add a steam line to the shower space, plug the generator into a 120V, 20 amp outlet and your steam bath is ready to use. Vapormist generators are quiet, minimize water and energy consumption and generate steam within 80 seconds of start up.

COST-EFFECTIVE COMFORT

With Vapormist, Amerec engineers have made steam bathing easier and more affordable than ever. Smaller than a shoebox (4"W x 7 1/2"H x 9 1/4"L), Vapormist is ideal for converting small shower enclosures into luxurious steam baths.

-  120V Vapormist affordably provides the ambiance of soft, gentle steam at lower temperatures than standard 240V steam units
-  Compact size fits anywhere and makes it affordable to turn even the smallest shower into a luxurious steam bath
-  Plug and play simplicity – whisper-quiet operation with no complicated installation or instructions
-  Low power and water consumption saves money and is resource-friendly
-  Limited Lifetime warranty, unmatched in the industry

BE GOOD TO YOURSELF

Steam bathing is one of the single best ways to improve your overall well-being. The gentle, humid heat relaxes muscles and improves circulation with minimal stress on your cardiovascular system. Your whole body responds with a purifying sweat, flushing out dirt, toxins and dead skin cells. Open pores absorb pure, clean moisture, hydrating and rejuvenating skin. Breathing problems and obstructions clear up. A daily steam bath will help you both look and feel better, so you can always be at your best.

R30i CONTROL

The attractive simplicity of the R30i control unit makes it perfect for managing your AV Vapormist steam spa. The R30i on/off control features a built-in 30 minute timer and can be mounted inside or outside the steam shower.

ACCESSORIES

RESIDENTIAL STEAM GENERATORS

We all have different criteria for measuring comfort. Amerrec makes it easy to personalize your experience with a range of steam bath accessories that add to your sense of well-being. Whether you prefer the mood-soothing effects of soft color light, the peace of mind of cooled steam outlets or the ultimate convenience of an automatic drainage system, Amerrec has a solution for making your steam bath exactly right for you.

CHROMATHERAPY LIGHTING OPTION

Colors have a documented effect on our moods and using colored light to enhance feelings of inner peace and well-being is now an accepted practice. Enhance the soothing and revitalizing effect of your steam bath with our ceiling-mounted color light therapy kit.

FRAGRANCE INJECTOR OPTION

The injector eliminates the need to add aromatherapy oils onto the steam head by introducing oils directly into the steam line. The K200i Control allows the bather to control the frequency and amount of aromatherapy oil pumped into the room.

COMFORTFLO™ STEAM HEAD

The ComfortFlo steam head is designed with a unique steam dispersion pattern that provides more even heat throughout the steam room and reduces the time required to reach the desired room temperature. Amerrec ComfortFlo steam heads ensure each steam bath is a safe and pleasurable experience. Steam is delivered into the room through an internal Ryton plastic insulator, preventing the exterior metal surface from reaching high temperatures. The ComfortFlo steam head features a fragrance reservoir that allows the bather to enjoy the benefits of aromatherapy by adding their favorite fragrance to the reservoir.

FRAGRANCE, EUCALYPTUS

- Suprema Grade,
100% Pure.

WHITE RELAX SHOWER SEAT

- The Relax shower seat is an affordable seating option for steam baths and showers. It provides bathers a place to relax and enjoy the soothing benefits of steam. Constructed of easy to clean plastic, the Relax seat can be folded-up against the wall when not in use. Seat dimensions are 13" x 9".

TEAK SHOWER SEAT

- Featuring the beauty and durability of Teak wood, this sturdy seat is an affordable seating option for baths and showers. The Teak seat provides bathers a place to relax and enjoy the soothing benefits of steam. Easy to clean, the Teak seat can be folded-up against the wall when not in use. Seat dimensions are 20" x 13".

STEAM SHOWER SOUND SYSTEM

- The Steam Shower Sound System offers superior sound quality for your personal steam shower. Waterproof FM radio with iPod interface, pre-amp outlet and RF 2-way remote control. Waterproof flush-mount, 2-way speakers with powder coated stainless steel grilles.

ASX100 SINGLE SUMP/ CARTRIDGE SYSTEM

- With replaceable cartridge featuring a ScaleX2 filter to reduce scale build-up and extend element life.

ADP STAINLESS STEEL DRIP PAN

- Designed for use with Amerec AT, AK, 3T and 3K series steam generators. When properly installed and connected to an appropriate drain line, the ADP drip pan catches and drains away any water leaks. Features stainless steel construction with welded corners and a 3/4" stainless fitting.

AUTOMATIC DRAIN VALVE

- Automatic Drain Valve for AK & 3K Series Generators
