Vonse Additional Notes/Options:

Please note **shower head side**. High side of enclosure will be on the shower head side.

*Rain & Symmetry have a maximum unit height of 80".

The **low point of the slope** will vary based on the overall unit height, but the minimum height from the floor to the low point of the slope is 60".

NEW Vonse units can be manufactured without the curve at the top. Please make a written reference and illustrate a straight top edge on your drawing when ordering.

Please note any **out of square conditions** or **notched panel(s)**. No additional charges apply.

Door & Panel(s) enclosures may require additional structural support. When using wall mount hinges, 36" is the maximum panel width before a support bar is needed. Glass-to-glass hinges always require use of a support bar and minimum hinge panel size is 12". The number of hinges provided will be determined by the application. Adequate wall support (wall stud at screw location) is required.

AQUAGLIDE^{XP} Clear is shown above. AquaGlide^{XP} protection is also available for all other glass patterns for an additional \$100.00 for a 900 unit or add \$200.00 for a 935/950 unit.

You may substitute a back-to-back knob instead of the handle for no additional charge.

Mitering for glass-to-glass edge is available for VONN-950 - add \$368.00.
