

BRASSMASTER PLUS+

Water Softening & Filtration Systems

PURIFICATION &
WATER SOFTENING
ALL IN ONE!

WHOLE HOUSE
Effective treatment of:

- Chlorine & Chloramines
- Water Hardness
- Taste & Odor Issues
- Iron*

Chlorine and/or chloramines are commonly used as additives in public water systems. The MultiMAX water filtration system effectively removes these undesirable additives and softens your water at the same time. The result is clean, non-irritating, softened water.

The automatic system regenerates with common pellet salt, just like a standard water softening system.

* High iron concentrations may require additional equipment

Where NATURE & SCIENCE meet.™

BRASSMASTER PLUS+

Water Softening & Filtration Systems

Nearly all serviceable parts lie within the removable/replaceable APM module. This eliminates costly and time consuming field repairs.

Specifications	MTM-100	MTM-200
Softening capacity [grains]	32,000	48,000
Softening media [cu. ft.]	1	1.5
Carbon media [cu. ft.]	0.5	1
Service flow rate* [GPM]	6	9
Max flow rate** [GPM]	12	14
Mineral tank dimensions	10" x 54"	13" x 54"
Brine tank dimensions	18" x 33"	18" x 33"
Backwash rate [GPM]	2	3.5
Lbs salt / regeneration	12	18
Iron capacity [PPM]	1	1
Overall height	64"	64"
Inlet / outlet pipe size	3/4"	3/4"
Pipe centers	2"	2"
Approx. shipping weight [lbs]	85	125

* Max flow rate for optimal chemical removal

** Max flow rate for system

MultiMAX features a two-chambered tank system with high-quality softener resin and an additional bed of specialized carbon media for removal of chemicals, taste, odors, and other impurities.
