K-45131	Diverter bath spout	☐ CP	☐ Other ____
K-45133	Non-diverter bath spout	☐ CP	☐ Other ____

Installation Notes

Install the valve trim according to the installation guide.

Install the Rite-Temp valve according to the installation guide.

NOTICE: Risk of product damage. Long screws, for installing trim, can damage the K-2971-KS valve. Consult the trim installation guide to verify if the thin wall installation kit (88526) is needed.

Avoid cross-flow conditions. Do not install a shut-off device on either valve outlet.

Cap the shower outlet if the deck-mounted spout, diverter, or handshower is connected to the spout outlet.

Install a 7" (178 mm) to 18" (457 mm) straight pipe or straight tube with single bath elbow between the valve and the wall-mount spout.
