

DESCRIPTION

The 6390 series mop receptor is an all stainless steel mop receptor designed for use in commercial settings. This unit provides a very durable and sanitary unit.

SPECIFICATION

The 6390 series mop receptor is constructed of 16 ga stainless steel type 304. All exposed surfaces are polished to a #4 satin finish. Aprons are provided on three sides. This fixture is coated with a fire resistant sound deadener. A 2" brass caulk drain with a removable stainless steel grid strainer is provided with the unit.

Unit may be pictured with some optional features.
