SHEAR GUARD[®]
PROUDLY MADE IN THE USA

Shear Guard™ protects flexible couplings from shear failure and pipe offsets.

Indiana Seal is the exclusive manufacturer and distributor of Shear Guard® by Onset.

Features

- Improved pipe alignment
- Available for 4" diameter pipe
- Simple to install - Slides over the included Indiana Seal coupling
- Installation is hassle free with no additional hardware or adhesives required
- Reduced installation time
- Works with: SDR 35/26 pipe, ABS pipe, PVC SCH 40 pipe, cast iron and clay
- Helps avoid expensive warranty repairs
- Reduced cost when compared to other methods such as concrete encasement
- Shear Guard compatible with cast iron pipe
- **COMING SOON:** Shear Guard for 6" diameter pipe

THE PROBLEM

One of the major challenges every utility contractor faces today is the cost related to the failure of flexible connectors.

Most jurisdictions are now requiring protection for flexible couplings from shear failure.

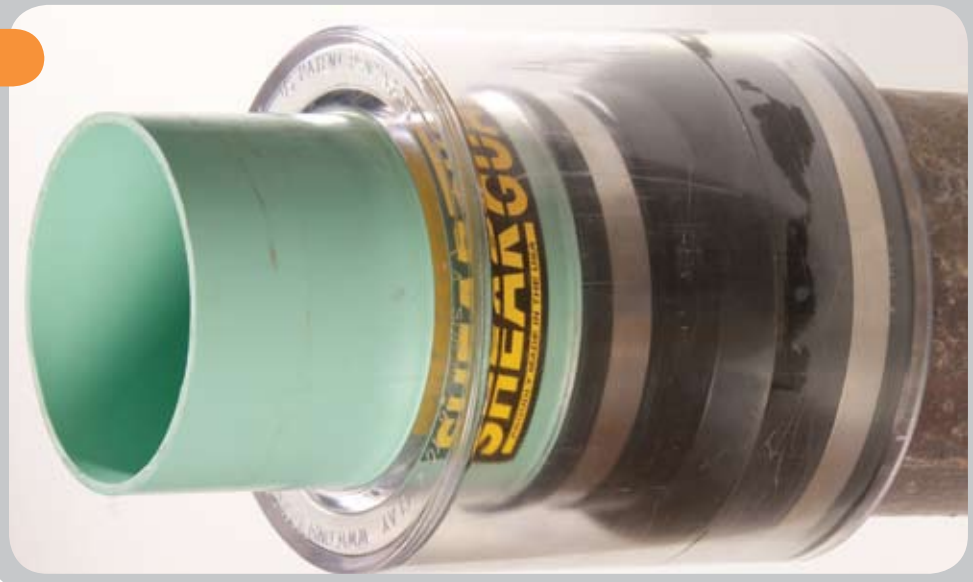

THE SOLUTION

The Shear Guard® coupling support was developed as a simple and inexpensive solution to address this challenge.

Use Shear Guard® coupling supports to avoid the costs associated with remedial work.
