

AP250-005 Test Kit for Emergency Showers and Safety Stations

Application: Test emergency equipment for proper operation. Includes Tychem® chute and pail to contain tested water flow and prevent spillage.

Note: ANSI Z358.1 requires weekly activation of emergency equipment for a period long enough to verify operation and ensure flushing fluid is available.

Contents: 48" telescopic aluminum pole, 11-1/2" diameter Tychem® test chute, 5 gallon plastic pail, and eyewash tester.
