

NORTHERN PLUMBING SUPPLY

Industrial Grade Silicone Sealants

PART# 1233-100

PRODUCT DESCRIPTION: CLEAR

Sila-Seal Industrial Grade Silicone Sealants are non-slumping, one-part 100% silicone rubber acetoxy sealants that cure to a tough, rubbery solid upon exposure to moisture in the air (RTV-room temperature vulcanizing) with long-term flexibility and durability. All Sila-Seal Industrial Grade Silicone Sealants are NSF certified and are safe for all types of food contact. It is primarily used as general purpose sealing and bonding agents, as space-filling rubber adhesives, or formed-in-place gaskets. Sila-Seal Industrial Grade Silicone Sealants adhere to clean metal, glass, most types of non-oily woods, silicone resin, vulcanized silicone rubber, ceramic, natural and synthetic fiber, most painted and plastic surfaces. Fully cured, the RTV silicone can be used for extended periods at temperatures up to 400°F and for shorter periods as high as 450°F. This product is ideal for many industrial applications where a long-term, permanently flexible bond or seal is required. This product comes in a case of 12, 10.1 fluid ounce cartridge with a removable nozzle and cap.

Typical uses for Sila-Seal Industrial Grade Silicone Sealant include:

- Adhering and sealing appliance trim and parts
- Adhering signs and plaques to approved surfaces
- Adhering and sealing sheet metal
- Formed-in-place gaskets for axle housings, differentials, junction box covers, etc.
- Sealing aquariums
- Sealing joints in ductwork
- Sealing skylights
- Sealing truck cabs and trailers, marine portholes, and cabins

SILA/SEALTM
The seal you can count on.
