

# NORTHERN PLUMBING SUPPLY

## High Temperature Silicone Sealants

PART# 1233-500

### PRODUCT DESCRIPTION- RED

Sila-Seal High Temperature Silicone Sealant is a one-part, non-slumping 100% silicone sealant with the consistency similar to that of toothpaste. This Sila-Seal Silicone is NSF certified and is safe for all types of food contact. It cures when it is exposed to moisture in the air (RTV-room temperature vulcanizing) to form a tough rubbery seal.

Sila-Seal High Temperature sealant is formulated to perform at temperatures ranging from -65°F to 500°F under continuous operating conditions. During intermittent exposure Sila-Seal High Temperature Silicone Sealant will withstand temperatures as high as 550°F. This product comes in a case of 12, 10.1 fluid ounce cartridge with a removable nozzle and cap.

Typical uses for Sila-Seal High Temp Silicone Sealant include:

- Aerospace gasketing
- Automobiles, RVs, boats and small engines
- Bag filters on smoke stacks
- Bonding, sealing, potting and encapsulating high temp areas
- Heating elements in appliances
- Heat risers
- Heating, ventilation, and air conditioning (HVAC) and industrial use
- Industrial ovens
- Rocker covers
- Use to make/replace expensive paper and cork gaskets
- Timing chain/belt covers
- Water pumps
