

NORTHERN PLUMBING SUPPLY

ULTRA-HIGH TEMPERATURE SILICONE SEALANTS

PART# 1233-600

PRODUCT DESCRIPTION - RED

SILA-SEAL™ Ultra-High Temperature Silicone Sealant is a one-part, non-slumping 100% silicone sealant. This SILA-SEAL™ Silicone is NSF certified and is safe for all types of food contact. It cures when it is exposed to moisture in the air (RTV-room temperature vulcanizing) to form a tough rubbery seal.

It is formulated to perform at temperatures ranging from - 65°F to 600°F under continuous operating conditions. During intermittent exposure, SILA-SEAL™ Ultra-High Temperature Silicone Sealant will withstand temperatures as high as 650°F. This product comes in a case of 12, 10.1 fluid ounce cartridge with a removable nozzle and cap.

Typical uses for SILA-SEAL™ Ultra-High Temp Silicone Sealant include:

- Aerospace gasketing
- Automobiles, RVs, boats and small engines
- Bag filters on smoke stacks
- Bonding, sealing, potting and encapsulating high temp areas
- Heating elements in appliances
- Heat risers
- Heating, ventilation, and air conditioning (HVAC) and industrial use
- Industrial ovens
- Rocker covers
- Use to make/replace expensive paper and cork gaskets
- Timing chain/belt covers
- Water pumps
